

YOU ASKED. WE RESPONDED.

InterviewPath 2.0 is Here!

We're excited to announce several significant upgrades to InterviewPath:

Fillable Forms: You now have an option to utilize a fillable form to capture your interview notes as you go. When your interview is complete, you can save your information as a PDF.

Confidentiality Competency: We've added our 60th competency to allow you to ask interview questions pertaining to workplace confidentiality.

Even More Questions: You will now have access to a minimum of 15 interview questions per competency. And, we're creating even more questions as you read this.

Rename Your Interview

Guides: Now, you'll be able to rename your interview guides within InterviewPath; instead of simply seeing guides listed as 1, 2, 3.

Improved User Experience: We've also made minor formatting changes that you'll see as you navigate your home page.

**2.0 UPDATE
GO LIVE DATE:**

March 2, 2020
